

A Division of Magna Industries, Inc.

MAP-Pro™ FAQ's

Will my MagTorch® MAPP® gas torch work with the new MAP-Pro™ gas?

Yes, all of MagTorch® MAPP® torches have been tested and approved for use with MAP-Pro™ gas

What is the difference between the fuels (MAPP® vs. MAP-Pro™)?

There are virtually no differences between the two fuels, for an in depth review please see Magna's MagTorch® fuel comparison chart

What color is the new MAP-Pro™ cylinder?

The new MAP-Pro™ cylinder is yellow the same as our old MAPP® gas cylinders

How much gas does my MAP-Pro™ cylinder hold?

There is 14.1 ounces of fuel in the MAP-Pro™ cylinder

I am a retailer, do I need to change my UPC codes for the new MAP-Pro™ cylinder?

NO! Your UPC barcode will not change

Do I need to reference a new part number for MAP-Pro™?

Yes, your new part number is 308432 (current MAPP® item number is 305554) for domestic USA customers. International customers using an English label will be using a part number of MT100MP. For other language labels please contact Magna directly for assistance.

What is the new cost of MAP-Pro™

MAP-Pro™ pricing will be the same as your current MAPP® gas costs.

Why did Magna stop selling MAPP® gas?

Magna's fuel supplier was buying MAPP® gas from the petrochemical company, Pétromont and Co., who will be suspending their operations indefinitely on April 30, 2008. Pétromont was the sole manufacturer of MAPP® gas in the world. Therefore, their decision to stop all operations has forced the industry to move to an alternative gas. Magna has chosen to sell MAP-Pro® gas as our alternative.

What was Pétromont and Co's reason for suspending their operations?

We do not want to speak for the business reasons behind Pétromont and Co's decision to suspend operations. If you would like to read their statement you may follow this link: <http://www.petromont.com/en/accueilen.htm>

How soon will Magna begin to ship MAP-Pro® gas?

We will begin to ship the new gas in early March 2008.

I am a current customer of Magna's, will I see a disruption in my current or future orders?

NO! At this time Magna is working very hard to ensure that our current 100% fill rates are continued

If you have any other questions regarding MAP-Pro™ gas or other MagTorch® products please let us know by emailing us at cust_service@magna-insto.com.
